

# RISE and Swasthya Pahal

## Activity Report

14/11/2019

Foundation of Healthcare Technologies Society (FHTS)

Dr. Ashish Joshi

## SWASTHYA PAHAL (Health for all)

Swasthya Pahal (Health for all) is an interactive, innovative, technology enabled, Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored (SMAART) initiative. It utilizes touch screen, computer enabled, SMAART Portable Health Information Kiosks (PHIK) to enhance self-management of non-communicable diseases among individuals at risk of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity). SMAART PHIK is implemented through a series of health care camps held across urban slums and rural/tribal settings in India.

### Objectives

- To integrate clinical and non-clinical data sources by combining principles of ICTs to enhance population health outcomes across diverse geographic settings.
- To utilise the PHIK as a tool to assess the burden of chronic disease and associated risk factors in diverse settings such as urban slums and rural/tribal settings in India.

**Camp Day: 14<sup>th</sup> November 2019**

**Date:** 14<sup>th</sup> November 2019

**Venue:** Police Station, GTB Enclave

**Start time:** 11:00 AM

**End time:** 1:45 PM

**Objective:** To impart health and nutrition education to the participants and measure their height, weight, blood pressure and blood sugar besides seeking other health related information.

**Total beneficiaries and female beneficiaries in Swasthya Pahal:** 12, 0

**Total participants and female participants in RISE:** 0, 0

**Team Members:** Ashok, Nidhi, Mansi Rai, Bhawani

### Agenda of the camp

Components of the camp	Details	Material and methods used
1. Registration	<ul style="list-style-type: none"> <li>Collection of information from the participants such as name, age, phone number and address.</li> </ul>	Receipt booklet
2. Measurement of height and weight	<ul style="list-style-type: none"> <li>Height and weight was measured using standard procedures and protocols.</li> </ul>	Digital weighing machine, Stadiometer
3. Measurement of blood pressure and sugar	<ul style="list-style-type: none"> <li>Blood pressure and blood sugar was measured using standard procedures and protocols.</li> </ul>	Digital machines for measuring blood pressure and blood sugar, lancet, strips, cotton swabs, spirit
4. PHIK	<ul style="list-style-type: none"> <li>Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern</li> <li>Assessment of risk factors based on the information collected</li> </ul>	Laptop (touchscreen)
5. Nutrition counselling	<ul style="list-style-type: none"> <li>Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage non-communicable diseases including hypertension, diabetes and overweight and obesity.</li> <li>They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity.</li> </ul>	Verbal counselling
6. Rise	<ul style="list-style-type: none"> <li>Introduction to RISE initiative, its purpose and objectives</li> <li>Showcasing of rise products</li> </ul>	Rise products
7. Photographs	<ul style="list-style-type: none"> <li>Clicking pictures of the event</li> </ul>	Camera

## Observations during the camp

**Table 1:** Health card of the beneficiaries (n= 12)

Condition	Number of participants with the condition n (%)	Females with the condition n (%) <sup>a</sup>	Males with the condition n (%) <sup>b</sup>
Hypertension	1 (8.3)	NA	1 (8.3)
Diabetes	0 (0)	NA	0 (0)
Overweight /obese	6 (50)	NA	6 (50)
Regular physical activity	4 (33.3)	NA	4 (33.3)
Alcohol consumption	7 (58.3)	NA	7 (58.3)
Smoking cigarette or <i>bidhi</i>	5 (41.6)	NA	5 (41.6)

a - total females = 0; b- total males = 12

### Conclusion

A total of 12 beneficiaries (0 female) attended the Swasthya Pahal camp organised on 14<sup>th</sup> November 2019 at GTB Enclave Police Station. Only one beneficiary had hypertension (i.e. blood pressure >120mm/Hg) while none of the beneficiaries had high random blood sugar (> 140mg/dL). Half of the beneficiaries (50%) were overweight/obese (i.e. Body Mass Index > 24.9 kg/m<sup>2</sup>) and one third of the beneficiaries was engaged in regular physical activity (i.e. at least 4 times in a week). More than half of the beneficiaries consumed alcohol (58.3%) and more than one third of the beneficiaries smoked *bidhi* or cigarette (41.6%).

**Details of RISE products sold during the camp:** None of the participants viewed RISE products on the camp day. No RISE products were sold during the camp day.
