**SWASTHYA PAHAL (Health for all)** 

Swasthya Pahal (Health for all) is an interactive, innovative, technology enabled, Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored (SMAART) initiative. It

utilizes touch screen, computer enabled, SMAART Portable Health Information Kiosks

(PHIK) to enhance self-management of non-communicable diseases among individuals at risk

of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity).

SMAART PHIK is implemented through a series of health care camps held across urban slums

and rural/tribal settings in India.

**Objectives** 

• To integrate clinical and non-clinical data sources by combining principles of ICTs to

enhance population health outcomes across diverse geographic settings.

• To utilise the PHIK as a tool to assess the burden of chronic disease and associated risk

factors in diverse settings such as urban slums and rural/tribal settings in India.

Camp Day: 29th November 2019

Date: 29<sup>th</sup> November 2019

Venue: Bhikaji Cama Place

Start time: 12:30 AM

End time: 3:30 PM

**Objective:** To impart health and nutrition education to the participants and measure their height, weight, blood pressure and blood sugar besides seeking other health related information.

# Agenda of the camp

| Components of the camp                     | Details   | Material and methods used  |
|--|---|--|
| 1. Registration                            | • Collection of information from the participants such as name, age, phone number and address.  | Receipt booklet  |
| 2. Measurement of height and weight        | • Height and weight was measured using standard procedures and protocols.   | Digital weighing machine,<br>Stadiometer   |
| 3. Measurement of blood pressure and sugar | Blood pressure and blood sugar was<br>measured using standard procedures and<br>protocols.  | Digital machines for<br>measuring blood pressure<br>and blood sugar, lancet,<br>strips, cotton swabs, spirit |
| 4. PHIK                                    | <ul> <li>Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern</li> <li>Assessment of risk factors based on the information collected</li> </ul>   | Laptop (touchscreen)   |
| 5. Nutrition counselling                   | <ul> <li>Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage non-communicable diseases including hypertension, diabetes and overweight and obesity.</li> <li>They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity.</li> </ul> | Verbal counselling   |
| 6. Rise                                    | <ul> <li>Introduction to RISE initiative, its purpose and objectives</li> <li>Showcasing of rise products</li> </ul>  | Rise products  |
| 7. Photographs                             | Clicking pictures of the event  | Camera   |

### Observations during the camp

**Table 1:** Health card of the beneficiaries (n=24)

| Condition                  | Number of participants<br>with the condition<br>N | Females with the condition na | Males with the condition nb |
|----------------------------|---|-------------------------------|-----------------------------|
| Hypertension               | 8   | 2                             | 6                           |
| Diabetes                   | 4   | 0                             | 4                           |
| Overweight /obese          | 8   | 1                             | 7                           |
| Regular physical activity  | 2   | 0                             | 2                           |
| Alcohol consumption        | 3   | 0                             | 3                           |
| Smoking cigarette or bidhi | 2   | 0                             | 2                           |

a - total females = 4; b- total males = 20

#### Conclusion

A total of 24 beneficiaries (4 females) attended the Swasthya Pahal camp organised on 29<sup>th</sup> November 2019 at Bikhaji Cama Place Complex. Eight beneficiaries (2 females) had hypertension (i.e. blood pressure >120mm/Hg) while four beneficiaries (0 female) had high random blood sugar (> 140mg/dL). Eight beneficiaries (1 female) were overweight/obese (i.e. Body Mass Index > 24.9 kg/m²) and only two beneficiaries (0 female) were engaged in regular physical activity (i.e. at least 4 times in a week). Three beneficiaries (0 female) consumed alcohol though the frequency and quantity of alcohol consumed varied widely and two beneficiaries (0 females) smoked *bidhi* or cigarette. Lack of time due to long and irregular working hours was the main barrier reported by the beneficiaries to adopt a healthy lifestyle.

Details of RISE products sold during the camp: Fifteen participants (eight females) viewed RISE products on the camp day. They mostly viewed pouches and earrings. Details of RISE products sold during the camp day are mentioned in the table below.
