SWASTHYA PAHAL REPORT

2023

Date: 03/01/2023

Place: Mahatma Gandhi Camp, West Punjabi Bagh, New Delhi

Time: 11:00 am to 03:30 pm

Number of total beneficiaries: 26

Number of total female beneficiaries: 18

SWASTHYA PAHAL (Health for all)

Swasthya Pahal (Health for all) is an interactive, innovative, technology-enabled, SMAART (Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored) initiative. It utilizes a touch screen, computer-enabled, SMAART Portable Health Information Kiosk (PHIK) to enhance self-management of non-communicable diseases among individuals at risk of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity). SMAART PHIK is implemented through a series of health care camps held across urban, urban slums, and rural/tribal settings in India.

Objectives

- To integrate clinical and non-clinical data sources by combining principles of Information and Communication Technology (ICTs) to enhance population health outcomes across diverse geographic settings.
- To utilize the PHIK as a tool to assess the burden of chronic diseases and associated risk factors in diverse settings such as urban, urban slums, and rural/tribal settings in India.

Details

Date: 3rd January 2023

Venue: Mahatma Gandhi Camp, West Punjabi Bagh, New Delhi

Start time: 11:00 AM

End time: 03:30 PM

Number of beneficiaries: 26

Team Members: Dr. Heemanshu, Dr. Almas, Mamta Kushwaha and Sushmi Wilson

Table 1: Implementation of Swasthya Pahal

Components of the camp	Details	Material and methods used
Registration	<ul style="list-style-type: none"> Collection of information from the participants such as name, age, phone number and address. 	Receipt booklet
Measurement of height and weight	<ul style="list-style-type: none"> Height and weight were measured using standard procedures and protocols. 	Digital weighing machine, stadiometer
Measurement of blood pressure and sugar	<ul style="list-style-type: none"> Blood pressure and blood sugar were measured using standard procedures and protocols. 	Digital machines for measuring blood pressure and blood sugar, lancet, strips, cotton swabs, spirit
Portable Health Information Kiosk (PHIK)	<ul style="list-style-type: none"> Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern. Assessment of risk factors based on the information collected. 	Laptop (touchscreen)
Nutrition counselling	<ul style="list-style-type: none"> Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage non-communicable diseases including hypertension, diabetes and overweight and obesity. They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity. 	Personalised nutrition and lifestyle counselling

Table 2: Health status of beneficiaries screened (n=26)

Health conditions screened	Number of participants with the condition (n)
Prehypertension/ Hypertension (blood pressure $\geq 120/80$ mmHg)	18
High Random Blood Sugar (≥ 140 mg/dL)	4
Overweight/obese (Body Mass Index ≥ 25 kg/m ²)	16
Regular physical activity (>4 times/week)	1

Observations

A total of 26 beneficiaries (8 males and 18 females) attended the Swasthya Pahal camp organised on 3rd January 2023 at Mahatma Gandhi Camp, West Punjabi Bagh, New Delhi. Out of these twenty-six beneficiaries, two-third of them (n=18) had higher blood pressure than normal. Only a few (n=4) of the beneficiaries had high random sugar. More than half of them were overweight/obese (n=16), and only one of them was engaged in regular physical activity.

Additional Comments

- Many beneficiaries got to know about their health condition for the first time.
- Beneficiaries found the counselling session to be very informative and useful.
- All the beneficiaries found the Swasthya Pahal initiative very helpful.

Number of beneficiaries enrolled in follow up counselling program: Majority of the beneficiaries (n=22) expressed their interest to receive informative messages for diet and lifestyle management. All the twenty-two beneficiaries opted to receive messages on a weekly basis.
