SWASTHYA PAHAL REPORT

2023

Date: 04/05/2023

Place: DTC Bus Depot, Ambedkar Nagar, New Delhi. | Time: 11:00 am to 03:00 pm

Number of total beneficiaries: 53

Number of total female beneficiaries: 21

SWASTHYA PAHAL (Health for all)

Swasthya Pahal (Health for all) is an interactive, innovative, technology-enabled, SMAART (Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored) initiative. It utilizes a touch screen, computer-enabled, SMAART Portable Health Information Kiosk (PHIK) to enhance self-management of non-communicable diseases among individuals at risk of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity). SMAART PHIK is implemented through a series of health care camps held across urban, urban slums, and rural/tribal settings in India.

Objectives

- To integrate clinical and non-clinical data sources by combining principles of Information and Communication Technology (ICTs) to enhance population health outcomes across diverse geographic settings.
- To utilize the PHIK as a tool to assess the burden of chronic diseases and associated risk factors in diverse settings such as urban, urban slums, and rural/tribal settings in India.

Details

Date: 04th May 2023

Venue: DTC Bus Depot, Ambedkar Nagar, New Delhi

Start time: 11:00 AM

End time: 03:00 PM

Number of beneficiaries: 53

Team Members: Sakshi, Shravani Rajkhowa, Sushmi Wilson, Chandni Sharma, Jyoti Pali, Sakshi Trikha.

Table1: Implementation of Swasthya Pahal

Components of the camp	Details	Material and methods used
Registration	<ul style="list-style-type: none"> Collection of information from the participants such as name, age, phone number and address. 	Receipt booklet
Measurement of height and weight	<ul style="list-style-type: none"> Height and weight were measured using standard procedures and protocols. 	Digital weighing machine, stadiometer
Measurement of blood pressure and sugar	<ul style="list-style-type: none"> Blood pressure and blood sugar were measured using standard procedures and protocols. 	Digital machines for measuring blood pressure and blood sugar, lancet, strips, cotton swabs, spirit
Portable Health Information Kiosk (PHIK)	<ul style="list-style-type: none"> Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern. Assessment of risk factors based on the information collected. 	Laptop (touchscreen)
Nutrition counselling	<ul style="list-style-type: none"> Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage non-communicable diseases including hypertension, diabetes and overweight and obesity. They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity. 	Personalised nutrition and lifestyle counselling

Table 2: Health status of beneficiaries screened (n=53)

Health conditions screened	Number of participants with the condition(n)
Prehypertension/ Hypertension (blood pressure $\geq 120/80$ mmHg)	39
High Random Blood Sugar(≥ 140 mg/dL)	16
Overweight/obese (Body Mass Index ≥ 25 kg/m ²)	37
Regular physical activity (>4 times/week)	16

Observations

A total of 53 beneficiaries (39 males and 21 females) attended the Swasthya Pahal camp organised on 04th May 2023 at DTC Bus Depot, Ambedkar Nagar, New Delhi. Out of these fifty-three beneficiaries, three-fourth of them (n=17) had higher blood pressure than normal and an equal amount of them were found to be engaged in regular physical activity (n=16). Less than one-third of them (n=5) had high random blood sugar and more than half of them (n=12) were found to be overweight/obese.

Additional Comments

- Beneficiaries found the counselling session to be very informative and useful, and many of them got to know about more about their health condition.
- All the beneficiaries found the Swasthya Pahal initiative to be very helpful.'

Number of beneficiaries enrolled in SHINE: SMAART Hub for Informatics enabled Nutrition Education (SHINE) Initiative aims to enhance self-management of chronic non-communicable diseases using multilingual digital HEALTH intervention tailored to enhance their knowledge regarding self- management of disease condition(s), diet, physical activity, healthy lifestyle, home-remedies, medication adherence and stress management. Among the twenty-two beneficiaries, nearly all of them (n=21) expressed their interest to receive informative messages for diet and lifestyle management out of which majority of them (n=19) opted to receive messages on a weekly basis whereas only two opted to receive messages daily.

Details of RISE exhibition: RISE stands for Research, Innovation, Skills, and Entrepreneurship. The aim of the RISE initiative is to empower girls and women from urban slums. Women are trained to develop their natural talent to make them employable and self-reliant, to fit in an office environment with a paid stipend. An exhibition of the products: pouches, tiffin bags, masks, and jute bags made by women of the urban slum was organised at Fire Station, Shanker Road, New Delhi.
