SWASTHYA PAHAL REPORT

2023

Date: 27/09/2023

Place: Fatehpur Beri Village, Post Office Annual Meeting. | Time: 11:00 am to 03:00 pm

Number of total beneficiaries: 35

Number of total female beneficiaries: 0

SWASTHYA PAHAL (Health for all)

Swasthya Pahal (Health for all) is an interactive, innovative, technology-enabled, SMAART (Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored) initiative. It utilizes a touch screen, computer-enabled, SMAART Portable Health Information Kiosk (PHIK) to enhance self-management of non-communicable diseases among individuals at risk of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity). SMAART PHIK is implemented through a series of health care camps held across urban, urban slums, and rural/tribal settings in India.

Objectives

- To integrate clinical and non-clinical data sources by combining principles of Information and Communication Technology (ICTs) to enhance population health outcomes across diverse geographic settings.
- To utilize the PHIK as a tool to assess the burden of chronic diseases and associated risk factors in diverse settings such as urban, urban slums, and rural/tribal settings in India.

Details

Date: 27th September 2023

Venue: Fatehpur Beri Village Post Office Annual Meeting, New Delhi

Start time: 11:00 AM

End time: 03:00 PM

Number of beneficiaries: 12

Team Members: Chandni Sharma, Ashok Kumar, Achal and Sanskriti Chhibber.

Table1: Implementation of Swasthya Pahal

| Components of the camp | Details | Material and methods used |
|--|---|---|
| Registration | <ul style="list-style-type: none"> Collection of information from the participants such as name, age, phone number and address. | Receipt booklet |
| Measurement of height and weight | <ul style="list-style-type: none"> Height and weight were measured using standard procedures and protocols. | Digital weighing machine, stadiometer |
| Measurement of blood pressure and sugar | <ul style="list-style-type: none"> Blood pressure and blood sugar were measured using standard procedures and protocols. | Digital machines for measuring blood pressure and blood sugar, lancet, strips, cotton swabs, spirit |
| Portable Health Information Kiosk (PHIK) | <ul style="list-style-type: none"> Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern. Assessment of risk factors based on the information collected. | Laptop (touchscreen) |
| Nutrition counselling | <ul style="list-style-type: none"> Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage non-communicable diseases including hypertension, diabetes and overweight and obesity. They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity. | Personalised nutrition and lifestyle counselling |
| Photographs | <ul style="list-style-type: none"> Clicking pictures of the event. | Camera |

Table 2: Health status of beneficiaries screened (n=35)

| Health conditions screened | Number of participants with the condition(n) |
|---|--|
| Prehypertension/ Hypertension (blood pressure $\geq 120/80$ mmHg) | 17 |
| High Random Blood Sugar(≥ 140 mg/dL) | 5 |
| Overweight/obese (Body Mass Index ≥ 25 kg/m ²) | 16 |
| Regular physical activity (>4 times/week) | 15 |

Observations

A total of 35 beneficiaries (21 males and 14 females) attended the Swasthya Pahal camp organised on 27th September 2023 at Fatehpur Beri Village Post Office Annual Meeting, New Delhi. Out of these thirty-five beneficiaries, more than two-fourth of them (n=17) had higher blood pressure than normal and less than two-fourth of them were found to be overweight/obese (n= 16). More than one-third of them engaged in regular physical activity (n=15). Less than one-fourth of them (n=5) had high random blood sugar.

Additional Comments

- Beneficiaries found the counselling session to be very informative and useful, and many of them got to know about more about their health condition.
- All the beneficiaries found the Swasthya Pahal initiative to be very helpful.

The number of beneficiaries enrolled in SHINE: SMAART Hub for Informatics enabled Nutrition Education (SHINE) Initiative aims to enhance self-management of chronic non-communicable diseases using multilingual digital HEALTH intervention tailored to enhance their knowledge regarding self-management of disease condition(s), diet, physical activity, healthy lifestyle, home-remedies, medication adherence and stress management. Among thirty-five beneficiaries, three-fourth of them (n=31) expressed their interest to receive informative messages for diet and lifestyle management out of which the majority of them (n=25) opted to receive messages on a weekly basis. In contrast, only six opted to receive messages on a daily basis.

Details of RISE exhibition: RISE stands for Research, Innovation, Skills, and Entrepreneurship. The RISE initiative aims to empower girls and women from urban slums. Women are trained to develop their natural talent to make them employable and self-reliant, to fit in an office environment with a paid stipend. An exhibition of the products: pouches, round pouches, pencil boxes, and jute bags made by women of the urban slum was organised at Fatehpur Beri Village Post Office Annual Meeting, New Delhi.
