Registration No.: S/877/SDM/NW/2012

#### **SWASTHYA PAHAL (Health for all)**

Swasthya Pahal (Health for all) is an interactive, innovative, technology-enabled, SMAART (Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored) initiative. It utilizes a touch screen, computer-enabled, SMAART Portable Health Information Kiosk (PHIK) to enhance self-management of non-communicable diseases among individuals at risk of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity). SMAART PHIK is implemented through a series of health care camps held across urban, urban slums, and rural/tribal settings in India.

#### **Objectives**

- To integrate clinical and non-clinical data sources by combining principles of Information and Communication Technology (ICTs) to enhance population health outcomes across diverse geographic settings.
- To utilize the PHIK as a tool to assess the burden of chronic diseases and associated risk factors in diverse settings such as urban, urban slums, and rural/tribal settings in India.

#### **Details**

Date: 23<sup>rd</sup> November 2023

Venue: Ambedkar Basti, R. K Puram, New Delhi

Start time: 11:00 AM

**End time**: 03:00 PM

Number of beneficiaries: 28

Team Members: Shravani Rajkhowa, Ashok Kumar, Sushmi Wilson, Sakshi and Gunjan Sooden.

# Table1: Implementation of Swasthya Pahal

Components of the camp	Details	Material and methods used
Registration	• Collection of information from the participants such as name, age, phone number and address.	Receipt Booklet
Measurement of height and weight	<ul> <li>Height and weight were measured using standard procedures and protocols.</li> </ul>	Digital weighing machine, stadiometer
Measurement of blood pressure and sugar	<ul> <li>Blood pressure and blood sugar were measured using standard procedures and protocols.</li> </ul>	Digital machines for measuring blood pressure and blood sugar, lancet, strips, cotton swabs, spirit
Portable Health Information Kiosk (PHIK)	<ul> <li>Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern.</li> <li>Assessment of risk factors based on the information collected.</li> </ul>	Laptop (touchscreen)
Nutrition counselling	<ul> <li>Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage noncommunicable diseases including hypertension, diabetes and overweight and obesity.</li> <li>They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity.</li> </ul>	Personalised nutrition and lifestyle counselling

**Table 2: Health status of beneficiaries screened (n=28)** 

Health conditions screened	Number of participants with the condition(n)
Prehypertension/ Hypertension (blood pressure ≥120/80 mmHg)	20
High Random Blood Sugar(≥140mg/dL)	6
Overweight/obese (Body Mass Index ≥ 25 kg/m²)	16
Regular physical activity (>4 times/week)	14

#### **Observations**

A total of 28 beneficiaries (7 males and 21 females) attended the Swasthya Pahal camp organised on 23<sup>rd</sup> November 2023 at Ambedkar Basti, New Delhi. Out of these twenty-eight beneficiaries, more than two-third (n=20) had higher blood pressure than normal and one-fourth of them had high blood sugar than normal (n=6). Less than two-third of them were found to be overweight/obese (n=16) and two-fourth of them were found to be engaged in regular physical activity (n=14).

#### **Additional Comments**

- Beneficiaries found the counselling session very informative and useful, and many of them learned more about their health condition.
- All the beneficiaries found the Swasthya Pahal initiative to be very helpful.

Number of beneficiaries enrolled in SHINE: SMAART Hub for Informatics enabled Nutrition Education (SHINE) Initiative aims to enhance self-management of chronic non-communicable diseases using multilingual digital HEALTH intervention tailored to enhance their knowledge regarding self-management of disease condition(s), diet, physical activity, healthy lifestyle, home-remedies, medication adherence and stress management. Among twenty-eight beneficiaries, more than two-third of them (n=19) expressed their interest in receiving informative messages for diet and lifestyle management out of which the majority of them (n=15) opted to receive messages every week and only four opted to receive messages daily.
