A Gateway to Public Health

COMMITTED TO CREATING STUDENT
CENTERED ENVIRONMENT WITH HIGH
QUALITY EXPERIENTIAL LEARNING PROGRAM
FOCUSSING ON PREPARING THE FUTURE
PUBLIC HEALTH WORKFORCE WITH
NECESSARY 21st CENTURY SKILLS

LET'S TOGETHER
INSPIRE PUBLIC HEALTH

Virtual Interactive Novel Support Program for Innovation, Research and Entrepreneurship

Aims to address population health challenges of the 21st century by enhancing academic and non-academic skills of students using an Innovative and participatory experiential learning experience.

2013

COVID-19

2020

With deferred field activities due to COVID-19, the pedagogy of INSPIRE was translated to v-INSPIRE

WHAT STUDENTS GAIN?

- Understanding of public health challenges worldwide.
- Acquire interdisciplinary and employable skills.
- Design, develop, implement, and evaluate health technological interventions
- Understanding data and driving meaningful insights

Opportunity for students to participate in

**Community
Based Participatory
Research**

COMPETENCIES ADDRESSED

- Public Health and Healthcare systems
- Planning and management to promote public health.
- Leadership
- Policy in Public health
- System thinking
- Evidence based approaches to public health.
- Communication
- Interprofessional and/or Intersectoral Practice

Focus Areas

- Non-communicable diseases
- Well being
- Pandemic and emergency response preparedness
- Consumer Health Informatics
- Digital Health interventions
- Misinformation and Infodemics
- Nutrition informatics
- Workforce Strengthening

We offer-

- Field Internships
- Dissertation Guidance
- Public Health Research

Mentorship
is an integral component
of v-INSPIRE

ENAGAGEMENT & OUTCOMES

3000+

Enrollments

13 different countries

26 States and 4 UTs of India

183+

Unique Indian Institutes

19+

Unique International Institutes

41% Medical Graduates

81% Enrollment by females

TESTIMONIALS

My internship at FHTS provided me with an experiential learning opportunity that allowed me to draw on the theoretical components of what I had learned studying public health into practice. I was able to see how these concepts applied in the real world, and get a better understanding of the complexity of working in the community and the ethical challenges involved. After completing my internship I found a job back in Canada as a research assistant. I am now working in the Office of Community Engagement where I am able to apply my knowledge of the social determinants of health to work with the community and address health inequities, through research, education and service."

Sashaina Singh, MPH, University of Toronto

It has been a very unique experience of a virtual internship. I am glad to be one of the V- Inspire Interns. The overall guidance and exposure that Dr. Ashish Joshi provide is elucidate. Learning about healthcare system of other countries gave me insight of how we can improve and plan for better public health. This internship also helped me value teamwork. I would like to express my sincere gratitude to the FHTS team.

Nomisha Khatri, MPH from University of Hyderabad

98 percent would recommend the program

ACTIVITIES

- Community engagement
- Scientific writing
- Health Data analysis and visualization
- Story telling with data

HOW DOES IT WORK?

We invite applications throughout the year

1. Apply to the program.
2. Initial application review process
3. Screening
4. Decision to the applicant
5. Orientation
6. Mid evaluation
7. Final evaluation

PROGRAM PATHWAYS

- Employment
- Fellowships
- Teaching assistantships
- Digital-Portfolios

Undergraduate students from the University of Bingham, Nigeria visited FHTS for a one week Global Public Health Internship program
