## RISE

RISE or the Research Innovative Skill Employment is an initiative which was started with the aim of employing 500 school dropout girls/pursuing open schooling/married and want to start career but have no skills to do something on their own. The biggest challenge for a young girl growing up in underprivileged settings is her environment and the cultural taboos that engulf her. The rise INITIATIVE recognizes this and facilitates less fortunate young girls to build on their interests and talents to become SELF-RELIANT.
