SWASTHYA PAHAL REPORT

2023

Date: 03/03/2023

Place: Bhikaji Cama Place, New Delhi. | Time: 11:30 am to 03:00 pm

Number of total beneficiaries: 13

Number of total female beneficiaries: 4

SWASTHYA PAHAL (Health for all)

Swasthya Pahal (Health for all) is an interactive, innovative, technology-enabled, SMAART (Sustainable, Multi-Sectoral, Accessible, Affordable, Reimbursable and Tailored) initiative. It utilizes a touch screen, computer-enabled, SMAART Portable Health Information Kiosk (PHIK) to enhance self-management of non-communicable diseases among individuals at risk of metabolic syndrome (including diabetes, hypertension, high cholesterol and obesity). SMAART PHIK is implemented through a series of health care camps held across urban, urban slums, and rural/tribal settings in India.

Objectives

- To integrate clinical and non-clinical data sources by combining principles of Information and Communication Technology (ICTs) to enhance population health outcomes across diverse geographic settings.
- To utilize the PHIK as a tool to assess the burden of chronic diseases and associated risk factors in diverse settings such as urban, urban slums, and rural/tribal settings in India.

Details

Date: 3rd March 2023

Venue: Bhikaji Cama Place, New Delhi

Start time: 11:30 AM

End time: 03:00 PM

Number of beneficiaries: 13

Team Members: Gaurav Kumar, Jyoti Pali, Mamta, Sakshi and Shravani Rajkhowa.

Table1: Implementation of Swasthya Pahal

Components of the camp	Details	Material and methods used
Registration	<ul style="list-style-type: none"> Collection of information from the participants such as name, age, phone number and address. 	Receipt booklet
Measurement of height and weight	<ul style="list-style-type: none"> Height and weight were measured using standard procedures and protocols. 	Digital weighing machine, stadiometer
Measurement of blood pressure and sugar	<ul style="list-style-type: none"> Blood pressure and blood sugar were measured using standard procedures and protocols. 	Digital machines for measuring blood pressure and blood sugar, lancet, strips, cotton swabs, spirit
Portable Health Information Kiosk (PHIK)	<ul style="list-style-type: none"> Collection of data from the participants pertaining to their socio-demographic profile, medical history, physical activity and alcohol and smoking consumption pattern. Assessment of risk factors based on the information collected. 	Laptop (touchscreen)
Nutrition counselling	<ul style="list-style-type: none"> Based on the assessment report generated by PHIK, participants were provided individualized diet and nutrition counselling to prevent and manage non-communicable diseases including hypertension, diabetes and overweight and obesity. They were counselled about healthy dietary habits, healthy snacking options, good dietary behaviours, meal patterns and importance of physical activity. 	Personalised nutrition and lifestyle counselling
Photographs	<ul style="list-style-type: none"> Clicking pictures of the event. 	Camera

Table 2: Health status of beneficiaries screened (n=13)

Health conditions screened	Number of participants with the condition(n)
Prehypertension/ Hypertension (blood pressure $\geq 120/80$ mmHg)	8
High Random Blood Sugar(≥ 140 mg/dL)	5
Overweight/obese (Body Mass Index ≥ 25 kg/m ²)	8
Regular physical activity (>4 times/week)	2

Observations

A total of 13 beneficiaries (9 males and 4 females) attended the Swasthya Pahal camp organised on 03rd March 2023 at Bhikaji Cama Place, New Delhi. Out of these thirteen beneficiaries, more than two-third of them (n=8) had higher blood pressure than normal and were found to be overweight/obese (n=8). Nearly one-third of them (n=5) had high random blood sugar and a very few (n=2) of them were engaged in regular physical activity.

Additional Comments

- Beneficiaries found the counselling session to be very informative and useful, and many of them got to know about more about their health condition.
- All the beneficiaries found the Swasthya Pahal initiative to be very helpful.

Number of beneficiaries enrolled in SHINE: SMAART Hub for Informatics enabled Nutrition Education (SHINE) Initiative aims to enhance self-management of chronic non-communicable diseases using multilingual digital HEALTH intervention tailored to enhance their knowledge regarding self-management of disease condition(s), diet, physical activity, healthy lifestyle, home-remedies, medication adherence and stress management. Among thirteen beneficiaries, more than three-fourth of them (n=11) expressed their interest to receive informative messages for diet and lifestyle management and all of them (n=11) opted to receive messages on a weekly basis whereas none opted to receive messages on a daily basis.

Details of RISE exhibition: RISE stands for Research, Innovation, Skills, and Entrepreneurship. The aim of the RISE initiative is to empower girls and women from urban slums. Women are trained to develop their natural talent to make them employable and self-reliant, to fit in an office environment with a paid stipend. An exhibition of the products: pouches, tiffin bags, masks and jute bags made by women of the urban slum was organised at Bhikaji Cama Place, New Delhi.
